MEMORANDUM FOR THE RECORD

SUBJECT: Policy on GFAE for Model 1649 Constellation Aircraft (White Whale)

1. The White Whale was purchased by the Agency and, as such, is a government-owned aircraft. In view of this, the Project is authorized to provide GFAE for installation on the aircraft.

2. GFAE and related spares may be obtained through USAF channels by the Project Depot for issue to the aircraft. The Project Depot will maintain jacket file accountability on all GFAE and in turn will hold LAC accountable for all items issued. Spare parts for GFAE may be issued to LAC as required.

3. This policy was coordinated by telephone with Colonel Leo P. Geary, AFICG-5, HQ, USAF (reference conversation with [REDACTED] 3 January 1962).
